

## MADDOX

When Karl Maddox left these shores, I always knew he would return one day, more dangerous than when he left. My readers demanded to know what he had been doing whilst in exile, so word that he was returning to his old stomping ground was met with much excitement.

‘MADDOX’ is the start of a second series of stories set in and around the sex industry in Leeds. Whilst it sadly bids goodbye to some familiar characters, it welcomes back others from the past, leaving the door open for more exciting and murderous adventures to come.
